

## CARBON WHITE SOX WIN SOUTHERN ALTA. TITLE

Carbon White Sox won the Southern Alberta Little League baseball championship at Medicine Hat, defeating Calgary Buffaloes 6-3 in a final game on Monday afternoon. The final wound up an 8-team little league tournament. Other teams were Calgary Americans, Calgary Internationals, Medicine Hat Americans, Medicine Hat Nationals, East Coulee Pirates and Drumheller.

Barry Stubbett scattered five hits in going the distance for Carbon in the final game. Carbon made the most of their three hits off three Calgary pitchers to win. Wayne Arvison's double led the Carbon attack while Jack Loria hit two doubles for the losing Calgary club.

The Carbon White Sox Little Leaguers have done it again.

Not only were they champions of the League in 1955, '56, '57, '58 and '59 but this year have won the Southern Alberta title taking all three games at Medicine Hat Saturday, Sunday and Monday. Yogi was the star pitcher, saving the day in the last game. Stubby was right behind the boys all the way.

They returned to a great homecoming at the Lions Hall and were interviewed by the CJDV Radio Announcer, Drumheller who was on hand to greet them. Several citizens and children gave them a rousing welcome and lunch was served by the ladies.

The boys are going to Calgary to meet the Northern Champions. The good wishes of all the community go with them. Come on Kids—you can do it.

Our sympathy goes out to Mrs. W. White who received the sad news that the plane piloted by her nephew had been found with no survivors.

Ralph Fuller sustained serious back injuries at the Rockyford Rodeo and is a patient in Calgary Hospital. We wish him a speedy recovery.

Hospital patients include in Drumheller: Mrs. Fred Harsch, John Harsch, Bill Douglas and Myrtle Coates, Ralph Fuller & W. Talbot in Calgary Hospitals.

Mr. and Mrs. Cliff Poole have have returned from their holiday to points in B.C. and the U.S.A.

Mr. and Mrs. Chas. Graham spent a few days at Sundre at the home of their son William Graham.

Members of the Carbon Baptist Church were present as delegates for the Ordination into the Gospel Ministry of Harold Sailer a former member of the Carbon Baptist Church on July 5th at the Bridgeland Baptist Church, Calgary.

Rev. Sailer is a graduate of Kathryn High School and Northwestern College, Minnesota. He is the son of Mr. and Mrs. Emanuel Sailer of Kathryn.

### GAMBLE NEWS

By Mrs. F. McCracken

The recent hailstorm left some damage in the north part of our district but far more in Mount Vernon and Ghost Pine areas.

Mrs. A. King is hostess to the Gamble Ladies Aid this week.

R.C.A.F. planes are still searching for a party of four who disappeared in their light plane between Vancouver and Quesnel, B.C. The pilot was Don

Patchett, nephew of Mrs. Wm. White.

Clarence Guynn is installing a water system.

Charlie King and family motored to Westlock to visit Mrs. King's sister.

Glenn Johnson and family spent a weekend at Banff.

Mr. and Mrs. Pete Johnson were Delburne visitors this week.

Mr. and Mrs. C. O. Martin and Mr. and Mrs. Fred McCracken and Murray toured the "Dinosaur Trail" on Sunday.

Glad to hear that Mrs. Larson is feeling better now.

Mr. and Mrs. Neil McPherson and daughters Brenda and Susan spent several days at the home of his sister Mrs. G. C. McCracken. Their home is at Nelson, B.C.

Eileen Sigmund is visiting her parents. She spent a few days with her sister Vivian and family in Calgary.

### CARD OF THANKS

I wish to thank all my kind friends, neighbors and all who sent me gifts, flowers, cards and visited me while I was a patient in the Drumheller Hospital.

Martin Hecktor.

## Acme

### CARBON PONY LEAGUERS WIN AT ACME

The Annual Baseball Tournament held Wed. July 22nd at Acme was blessed by perfect weather and good baseball with Stettler scoring five runs in the fifth inning to wipe out a 1-0 Irricana lead and going on to win 9-1 as Mickey McNabb came on in relief to hold Irricana scoreless during the balance of the game.

The Pony League Tournament was won by Carbon who scored three runs in the 10th inning to break a 5-5 tie and win 8-5 over Drumheller.

Carbon defeated Beiseker to reach the final while Drumheller finally got to Ralph Vanover with a two run homer in the 10th inning to defeat Acme 4-2 in their semi-final game.

In the first senior game of the day, Knobby deVost pitched a one hit shutout as Irricana blanked Trochu 4-0.

The second game featured a pitching duel between Duke Christensen of Standard and Mickey McNabb of New Norway as Standard won 2-0. Among the New Norway players was Rollie Miles of Edmonton football fame.

Stettler finally got to Doug Marquette of Brooks for three big runs in the ninth inning as Mickey McNabb pitched Stettler to a 4-1 win.

Irricana reached the final by defeating Standard 14-7 in a hard hitting game. Irricana got away to a big start with four runs in the first inning but

Standard came back with five runs in the 4th inning to lead 5-4 and the teams were tied 6-6 when Scott Nixdorff slammed a bases loaded home run in the sixth inning. John Geier hit a three run homer in the ninth inning for Irricana. Knobby deVost came on in relief to hold Standard in check the last few innings.

The booth did a brisk business throughout the day and the dance at night was well attended and brought the day to a most successful conclusion.

Miss Tillie Tamashiro of Edmonton was holidaying at the home of her sister Mrs. Herney

## Air Cadet G. Coull wins Europe trip

—THE PRESS, Neepawa, Man. One of the highest honors a Canadian Air Cadet can receive, the right to participate in an annual overseas exchange tour, has been awarded to WO2 Glen Coull of the Neepawa Air Cadet Squadron No. 9.

In addition to being chosen as one of the 25 cadets from Canada who will take the tour this year, Glen was chosen as one of two who will tour the Netherlands. The other is cadet Vincent Gaudino of Port Arthur.

The two boys will arrive in

**WO2 GLEN COULL**

London, England, on July 18, and two days later will be flown to The Hague in the Netherlands in an RCAF Dakota. At the conclusion of the Netherlands tour, the boys will spend a weekend at No. 1 Fighter Wing, Headquarters, Metz, France, prior to joining the rest of the Canadian Cadets in London on Aug. 11 and leaving for Canada on August 14.

The boys have been asked to learn as much as possible about the country they will visit, and will be assisted in this at a special briefing session at Trenton, Ont., prior to their departure.

In announcing the award at the cadet's father and sons banquet held following the annual inspection parade, sponsoring committee chairman J. A. McPhedran said it is one of the most coveted awards an air cadet can win.

It is the third time the award has been received by a Neepawa cadet, since the squadron was formed in 1941. It is the first such award for a local boy in about eight years.

## SCHOOL GOURMET

Junior's school lunch should provide him with a nourishing noon meal that will satisfy his appetite and supply one third of the proteins, minerals and vitamins necessary to his daily diet.

It isn't how high you go in life that counts, but how you got there.

## Brooks woman's hobby is miniature pitchers

—THE BULLETIN, Brooks, Alta. All collectors seem to have fascinating hobbies, and among them can be included Mrs. William G. (Bert) Pierson of Brooks. Mrs. Pierson collects pitchers—mostly miniatures—and since she started this hobby back in 1939, she has accumulated some 150 samples with few duplications.

The photograph above does not contain all of her collection. It was taken by The Bulletin photographer following a gathering of the Special Interest Group of the M.I.A. (Mutual Improvement Association), a church organization. Members had gathered in their meeting at Mrs. Pierson's and admired the display as set up; she did not have room to unpack all her samples.

Mrs. Pierson first became interested in collecting pitchers when she obtained a miniature from her mother, Mrs. Josiah Tufts of Taber, who had received it in turn from her mother, Mrs. C. C. Collett, in 1898. The next oldest souvenir is a large cut glass, which possibly may be seen in the right background. She started her collection when they lived at Barnwell, where Mr. Pierson was C.P.R. station agent. They have lived here for the past year where he was transferred by the CPR.

Two years ago Calgary Herald columnist Ken Liddell featured Mrs. Pierson's collection in an article. As a result, she received a letter from a lady in Ontario who noticed a paragraph in The Toronto Star; another correspondent sent Mrs. Pierson a group of small pitchers gratis.

The situation took a strange twist when a man in the Maritimes thought Mrs. Pierson was collecting pictures, and he sent her a photograph of one in which he thought she might be interested.

Mrs. Pierson values her pitchers according to how or why she received them. Her son, Royce, who

spent two years in Australia on foreign mission for their church, brought back ten from Europe and Australia. Her brother, returning from South America, brought two home to her. One that she obtained in Taber came from Czechoslovakia, and was the last to be sent from that country before the Second World War.

There are pitchers from Holland and the Hawaiian Islands, from Boys Town, Nebraska; Australia; Bruges, Belgium; Venice, Switzerland, Germany, Sweden, Denmark, Mexico and most of the American States.

Three specimens are hand-blown; two are made from Myrtle Wood, which comes from only two places in the world—the Holy Land and the State of Oregon. One is made by a little Navajo Indian, "Pat"; others are native craft from South Africa. One can travel the wide world over simply by examining the origins of Mrs. Pierson's pitcher collection.

Mrs. Pierson developed other hobbies such as crocheting and knitting, following a serious operation some six years ago in which she had to learn to walk all over again. While those hobbies occupied her hands and her mind during difficult times, we think that her hobby of collecting miniature pitchers always came first with her. As we remarked at the beginning, collecting such curios is a fascinating hobby.

## Season's first ace scored at Jasper

This season's first hole-in-one on the world famous championship golf course at Jasper Park Lodge was scored late last week by a guest from Kingston, Ont. He is Cecil Holmes who, playing only his second game of the year, performed the feat using a No. 4 iron on the 185-yard seventh hole.

## Lady outdoes Phineas Fogg

—THE SUN, Swift Current, Sask.

Phineas Fogg circled the globe in 80 days, according to Jules Verne and the late Mike Todd, but that was a piker's trip in comparison to that which Mrs. Harriett Lawson, superintendent of the Prairie Pioneers' Lodge, is on at the present time.

She left Swift Current May 9 and will return May 26. During those 17 days she will have covered something like 20,000 miles and visited such places as the Fiji Islands, Auckland, New Zealand; Sydney, Australia; Richmond, Virginia; New York City and Toronto.

She flew from Regina to Vancouver, gained a day in crossing the Pacific to Auckland and arrived in Sydney two days after leaving the prairies.

Visit "down under" After a brief visit "down under" she flew to Richmond where she planned to spend a few days with a daughter, matron of a 3,500-bed hospital.

From there she intended to fly to Toronto, via New York, and visit relatives in both places. In Toronto she will attend the graduation of a grand-daughter, who is following in the family nursing tradition.

After attending the marriage of the same young lady the following day, Mrs. Lawson will again take to the air for her return journey to Swift Current.

## A FIRST AID HINT

In case of accident where a wound bleeds freely, the flow of blood should be arrested as quickly as possible. Pressure above the wound and the side nearest the heart will usually stop arterial bleeding. Medical aid should be summoned in case of serious hemorrhage. A tourniquet should not be used by anyone, untrained in first aid.

## Snappy dressings

Thin mayonnaise with fresh orange or lemon juice and add a bit of grated peel . . . delightful for fruit salads.

Lemon French dressing adds zest and sparkle to any salad . . . crumble in a bit of Roquefort cheese or toss in a few celery or poppy seeds; or stir in some red jelly or honey to vary.

Dip bite-size pieces of fresh orange in chopped nutmeats or coconut for fruit salad garnish.

Hollow out lemon halves . . . fill with mayonnaise thinned with lemon juice and sparked up with a bit of grated peel . . . especially good with fish salads.

## WATER SAFETY TIP

Remember, it is just as easy and as much fun to swim in four feet of water as in 40. Make every week water safe this summer. Think—don't sink!

## Heirloom quilt

(7010)

by Alice Brooks

This Old-Fashioned Nosegay, formed by scraps of different fabrics. It's fascinating to piece.

Think of the heirloom quilt you'll have when finished! Pattern 7010: pattern of pieces; charts; direction; yardages for single, double-bed quilt.

Send thirty-five cents (coins) for this pattern (stamps cannot be accepted). Print Plainly name, address, pattern number, to:

Household Arts Department, Department P.P.L., 60 Front Street W., Toronto.

## Pineapple pinwheel

7198

by Alice Brooks

Look carefully — pineapples circle the pinwheel. Dramatic from a distance or closeup. Doubly smart! Pretty luncheon set or single show-pieces.

Pattern 7198: crochet directions, 12 and 19-inch doilies in No. 30 cotton; 18 and 26 in string.

Send Thirty-five Cents (coins) for this pattern (stamps cannot be accepted), to:

Household Arts Department, Department P.P.L., 60 Front Street W., Toronto.

# Canadian Weekly Features

Fashion Model Elaine Bedard

## Tops in Her Trade

Canada's highest paid model, whose picture has appeared in fashionable magazines throughout Canada, the United States and Europe, pert Montrealer Elaine Bedard, has made a successful career in a profession which each year attracts more and more young Canadians to try their luck at fame and fortune in the exotic world of haute couture.

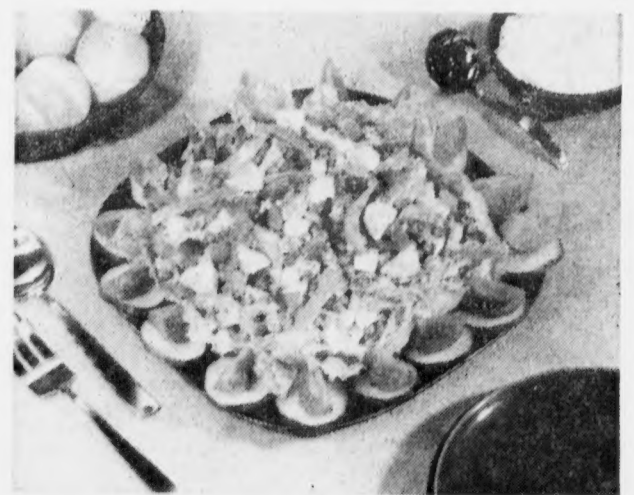

Elaine's delicate features and slim silhouette make her a favourite with Canada's top commercial photographers. In addition she possesses that indefinable and elusive quality known to the trade as "flair", without which no model can make her way to the top.

Good health is as important as good looks and Elaine keeps herself in trim with her favourite sport—horse back riding. Miss Bedard appears frequently on Canadian television programs both as a model and as an actress.

A career as strenuous as it is glamorous, the work-day of a successful model would make the training schedule of many an athlete look like a stately minuet. Elaine Bedard is often called upon to do 3 or 4 fashion shows in a day. The ability to look cool and composed under immense pressure is a prerequisite.

### GOOD WAY TO USE THE LAST OF THE HAM

Tender, meaty pieces of ham combined with an assortment of summer vegetables make a refreshing, light yet satisfying salad . . . an ideal meal for a lazy day.

This is one of the many salad recipes included in the new publication "Salads", available free from Information Division, Canada Department of Agriculture, Ottawa.

## TEACHING JOHNNY TO SWIM

CANADIAN RED CROSS SOCIETY

### 9-PRONE KICK GLIDE

Next we teach Johnny to do the "steamboat," which swimming instructors call the prone kick glide.

Have Johnny lie face down on a bed, bench, table, floor, the ground, or the deck of a swimming pool. Tell him to keep his legs straight but not too stiff and move them up and down. The movement should be slow and even.

When he can do this, have him get into waist-deep water. Ask

must remain under water at all times.

Next, have him do the human stroke while walking in the water. He should now do the prone kick glide and add the arm stroke. His face should be kept in the water.

Movements should be unhurried and even. Have Johnny work on this step until he can swim at least 10 feet.

The stroke learned here is also a good basis for other strokes, especially the American crawl.

This movement should be continued without interruption.

When Johnny understands the movement, put him into waist-deep water. Have him do a back glide and add the finning movement. He may need some support at first. Jimmie can furnish support by holding him at the shoulders.

Now have Johnny add the kick to this movement. and he will be swimming on his back. Getting a breath of air will be no problem because his face is out of the water at all times.

This is not a speed stroke but a restful one that can keep a person afloat for long periods of time with comparatively little effort.

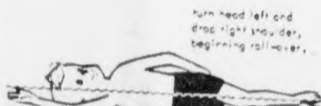

### 12-COMplete STROKE ON FRONT

Combining the arms and legs with breathing is a big step and an important one.

Tell Johnny to stand in shoulder-deep water and to move his arms as in the human stroke. Then he should add the breathing to the arm movement. This is done by turning the face to one side and then placing it back into the water. The turning of the face is timed with the movement of the arms. It makes little difference in which direction the face is turned, so have Johnny try turning to the left. The tim-

### 14-TURNING OVER

Johnny can now swim on both front and back. He should next learn how to turn over, from front

to back and from back to front, because this a good safety skill.

Have him swim on the front. Tell him to lower one shoulder and turn his head in the opposite direction in order to turn over. If he wants to turn to the right, he should lower his right shoulder and turn his head to the left. To turn to the left, he lowers his left shoulder and turns his head to the right.

To turn over while swimming on his back, have him lower one shoulder and turn his head in the same direction. The arms should remain under water while he is turning. Have him start swimming the human stroke as soon as the turn is completed.

ing goes like this: as Johnny slides his right hand forward, he turns his face to the left; as his left hand slides forward, he turns his face back into the water. After he has the technique mastered while standing still, have him practice again while walking in shoulder-deep water.

Johnny now is ready for the big moment. He is going to combine his legs, arms, and breathing. Tell him to do the prone kick glide, add the arms, and finally the breathing.

This step is extremely important and should be practiced time and time again. It would be well to work on the step, go on to another step, and come back again to this one. When Johnny has mastered the skills involved here, you can rest assured that he is making excellent progress.

### 13-COMplete STROKE ON BACK

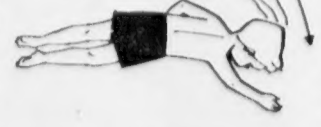

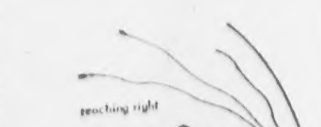

Now for a stroke on the back—finning. Have Johnny lie on a table, floor, or desk in a face-up position, with his arms extended along the sides of his body. From this position, his hands should be moved up along the body toward the hips for a distance of two or three inches. When they reach this point, have him turn them out so the palms are facing toward the feet, and, without stopping, push them back to place.

pressed straight down and back to a point directly below the shoulders. The hands are then lifted to a position just below the surface and again extended forward.

To practice the skill, have Johnny stand on land and bend forward. While he is in this position, tell him to do the human stroke.

Next put Johnny in chest-deep water and have him practice the stroke while standing. His arms

new direction and look toward the extended arm.

To change directions while swimming on his back, Johnny should tilt his head in the direction he wants to go and stroke hard with his opposite hand.

### Canada's women meet

(The Daily Sun, Brandon, Man.)

"The most powerful woman's lobby in Canada" was the title once given to the National Council of Women, and not without good reason. When women band together, they wield a tremendous force for good. Dedicated to the cause of improving women's rights in the home, at work, and in the courts of our country, the National Council has embellished its shining record with great achievements. "We may be a bit slow and stodgy at times," President Dr. Fraudena Eaton, OBE, LL.D., once said, "but once we decide to do something—watch out!"

A close-up of the National Council in action will be the privilege of hundreds of western Manitoba citizens. Meeting in annual convention at Wasagamung in the Riding Mountain National Park, the Canadian "parliament" of women has selected a site which is currently a riot of beauty. It will probably mark the first time that the Council has met in park surroundings, but every facility for an efficient program has been established by local committees.

Brandon had the opportunity of extending the first welcome to the distinguished and representative visitors. It was a sincere gesture, because this city, like so many others across Canada, acknowledges the wonderful contributions being made by the women in every phase of national and community life. In our own community, the Brandon Council of Women has revitalized interests and provided leadership of undoubted worth to citizens and organizations alike.

The National Council of Women carries genuine prestige in Canada. It could be termed the "mother temple" to local councils in more than 50 cities and towns across the land. In addition there are regional councils in almost every province. These in turn are made up of almost two thousand affiliated societies, with a total membership of about six hundred and sixty thousand members. It is little wonder then that people in high places give serious and favorable considerations to the movements which carry the endorsement of the National Council.

All Canada will follow with interest the current deliberations at Clear Lake. As always, the foremost leaders in our country are present to give counsel and direction to the problems which have been marked for attention. Western Manitoba, proud of the fact that the National Council is meeting in our midst, extends to them a royal welcome, and trust that their deliberations and stay will be fruitful and enjoyable in the highest degrees.

### A call

(The Journal, Melfort, Sask.)

When passing the Telephone Office today on my way home the thought struck me of the number of different calls that must be put through that office in the course of any day. And also I thought of the vast difference there must be in the nature of those calls. Some of gladness, some of sorrow, some of business, some of pleasure. Some local, and may be the odd one a call to another land.

This made me think of the different calls we receive in life, the various calls for service of many kinds, and I would take for our consideration that call to service which it is recorded in the Bible Moses received in the third chapter of the book Exodus, there we read that interesting story of how he was tending his sheep when he saw a burning bush which, in spite of its being on fire was not consumed and he turned aside to see why. When God saw that he turned he called him and entrusted him with a great duty. That was the beginning of Moses great life of service to his nation and to the world.

It has always been true that when men turn aside to learn they are called to higher things. If Moses had disregarded that call, chosen the easy life of a sheep herder in that land he would likely have lived and died unknown to the world at large.

The men who lead the world are usually men who have turned aside to ascertain and learn certain things, to them God speaks often commissioning them to great ends. What a message came to Moses out of that bush. He was to leave his sheep and face death by returning to Egypt.

The messages which come to us are not always easy to heed but when answered leave a deep satisfaction shared only by those who would mould their lives on a noble purpose. This subject should be an inspiration to any member of this community who has received a call to service of any kind and I would advise them to hear and answer same and that passage from the Bible which I have quoted should be a splendid example of the result of an affirmative answer.

## Sub-committees to study river pollution

A special sub-committee of the provincial government's sanitary commission was established recently to meet with a committee of the Greater Winnipeg Sanitary District to discuss the formulation of a uniform policy regarding pollution in the rivers in Greater Winnipeg. Hon. George Johnson, minister of health and public welfare, said recently.

Dr. Johnson met with Sanitary district representatives who will seek the establishment of a sub-committee of their group to meet with the provincial committee.

The minister said the two committees will study the whole question of jurisdiction in pollution matters in Greater Winnipeg and will make recommendations to the government as to how this duplication of authority can be avoided and how best to handle the overall problem.

Mayor Stephen Juba, who represented the Sanitary District, said the step is an important one toward reducing pollution in the rivers.

## Zesty salads

Add chilled orange pieces to tossed green, chef's, waldorf and cole slaw salads... gives a tangy, refreshing note you'll enjoy.

Marinate green onions in lemon juice while tossing the rest of the green salad. Add onions at last minute for subdued flavor.

To keep salad greens crisp, freshen in cold water with a little lemon juice.

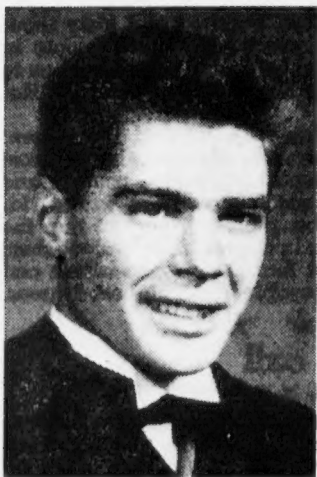

Fresh orange slices and creamy cottage cheese makes a tempting salad for those on reducing diets.

Stuffed cooked prunes or dates go well with large orange slices for a quick, nutritious salad.

## TIRED BUSINESS FOLK

Getting home tired and overheated is not conducive to good appetite but a tepid bath and a short rest will often stir the desire for food, especially if a crisp salad with cold cuts, fish, cheese or eggs are featured on the menu.

## DRIVE WITH CARE

GLEN FARRELL

## APPOINTMENT ANNOUNCED

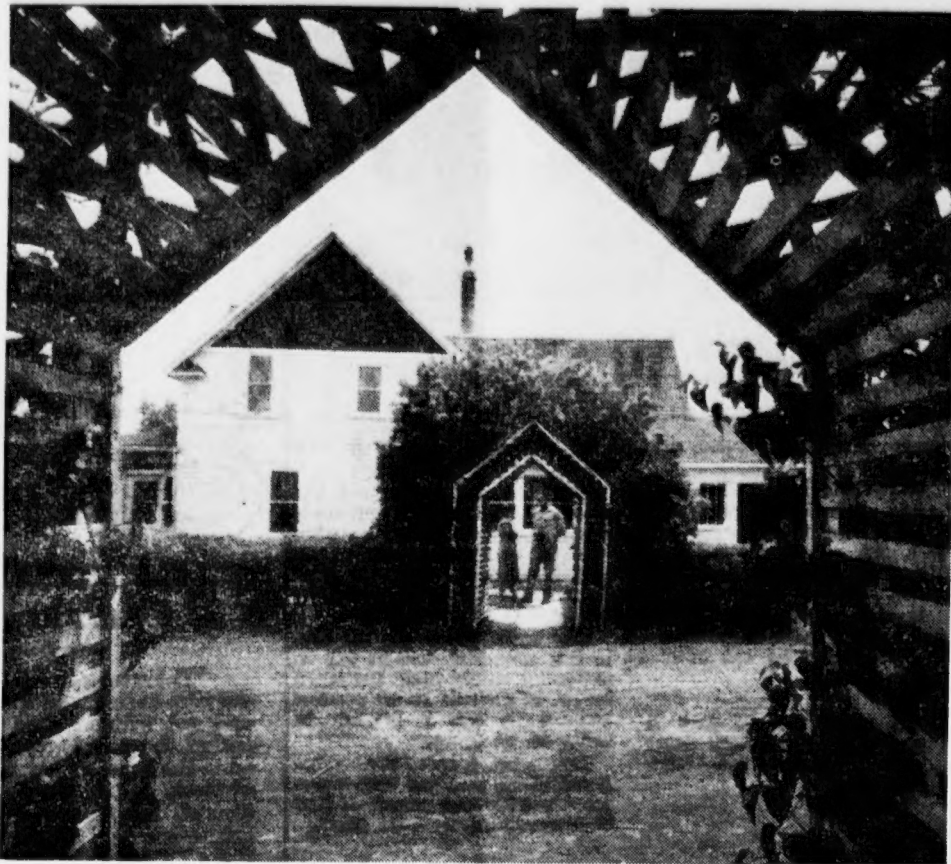

Glen Farrell, of Yorkton, has been appointed an extension assistant attached to the 4-H office in the extension department at the University of Saskatchewan in Saskatoon.

The announcement was made by Prof. R. D. Ramsay, director of the extension department.

Mr. Farrell, a 1959 agriculture graduate of the University of Saskatchewan, is well known in 4-H work having been employed by the extension department for the past three summers on junior activities.

Mr. Farrell's early education was received at a rural school and then at Yorkton Collegiate Institute where he was student council president in his final year. He also took part in sports and other high school activities. He received a Yorkton Kiwanis Entrance Scholarship to the University of Saskatchewan. He was an active member of the Yorkton 4-H beef club for seven years.

While at the U. of S., he was president of the Agriculture College Students' Association during his final year and was senior stick in his college. He gained a name as a curler over the years and earlier this year skipped the championship rink in inter-varsity competition.

ARCHWAYS topped with green clinging shrubs link the gardens at Talbot Farm, where the Queen will visit. Mr. and Mrs. C. N. Wells, seen framed in the archway, will be hosts to the Royal couple.

## Over \$1,200,000 made available as student aid

### —WITHIN OUR BORDERS

An expanded program of provincial government aid to university, high school, vocational and nursing students assures that no deserving Alberta resident will be denied a higher education due to lack of funds.

A total of \$1,176,000 has been provided for the fiscal year 1959-60 under the Students Assistance Act, an increase of \$608,000 over the amount available to students last year.

The amount for scholarships, bursaries and grants available to high school matriculants and undergraduate university students has been increased from \$64,500 to \$275,000. The funds provided for grants and payment of tuition fees for teachers in training has been increased from \$400,000 to \$480,000. Also increased is the amount available for student loans; from \$100,500 to \$200,000.

Introduced under the expanded program are a series of fellowships and scholarships totalling \$40,000 for advanced students enrolled in the University of Alberta Faculty of Graduate Studies. A maximum of 10 scholarships valued at \$2,200 or \$2,600 will be awarded each year primarily on the basis of academic achievement. Three fellowships valued at \$3,600 each will be available to students who have completed at least one year of graduate study, and who are registered in a full year of work at the University of Alberta leading to the degree of Doctorate in Philosophy or Doctorate in Education. Also available under this phase of the program are a maximum of 25 bursaries in the form of payment of tuition fees for an academic year.

For undergraduate students, whether entering university for the first time or in later years of their courses, there are available scholarships, grants and loans. The scholarships vary in amount from \$100 to \$1,250, depending upon academic accomplishment and financial need. Grants, based upon minimum accomplishment and need have a maximum of \$450, while loans may be obtained in certain circumstances up to \$400 in any year to a maximum of \$1,500 during a complete course.

The present extensive program of assistance to teachers-in-training is being expanded. Students enrolling in the one year course (Junior E), and in the two year courses (Standard E or Standard S), will be eligible to receive a grant of \$200 each year and payment of tuition fees each year. Fifty grants of tuition fees are provided in each of the third and fourth year of the Bachelor of Education program. Another 50 grants of \$400 plus tuition fees will be available to University graduates enrolling in the one-year program leading to high

school teacher certification. An additional 250 grants of \$100 each will be made to certificated teachers attending the University of Alberta summer school for the purpose of improving their qualifications in order to teach high school subjects.

Assistance in amounts of not less than \$50 and not more than \$200 will be available, for the first time, to students registered in full-time programs, at the levels of Grades X, XI, and XII, in publicly supported high schools. A total of \$106,000 is provided.

A system of grants, prizes and loans has been introduced to assist students enrolled at the Provincial Institute of Technology and Art in Calgary, other trade or technical schools operated by the Department of Education, and Alberta Schools of Agriculture. A total of \$4,000 has been provided for grants and prizes, while the loan fund is \$66,000.

The Act also provides that scholarships may be made available to Banff School of Fine Arts students. Details in this regard are still under consideration.

Student nurses are now eligible to receive grants not exceeding \$100 in any one year of their course. Previously student nurses were eligible to receive a maximum of \$100 for two years only. The amount provided in this category has been raised from \$3,000 to \$5,000.

Further information is available by writing: The Secretary, Students Assistance Board, Department of Education, Administration Building, Edmonton.

Union membership in Canada in 1958 totalled 1,454,000, about 23 percent of the laboring force.

MARY ANNETTE McGRATH, of Ceylon, Sask., received the degree of bachelor of arts (B.A.) with distinction at the 48th annual Convocation of the University of Saskatchewan in Saskatoon May 8.

## Heavy rains dishearten farmers

—SPRINGFIELD LEADER,

Lac du Bonnet, Man.

Sad and disheartened farmers stood along No. 4 highway between the Brokenhead River and Seddon's Corner recently following a one hour cloudburst.

The fields being completely saturated with continuous rains for the past week or two, could not hold any more moisture and the water built up to over a foot high in parts. The run off into the ditches was soon too great, and before long, the water was running over the highway, causing traffic to slow right down. Two bridges, one at Golden Bay and one at Molson turnoff, had their approaches washed out and temporary repairs were made. The Brokenhead river was left four to five feet above its normal level.

Further east the old No. 11 highway leading to the Milner Ridge Air Base was washed out 5½ miles north of Highway 4, and the CPR tracks were also washed out around that point, and farmlands were completely flooded.

The storm cut a swath from the Libau district to around the Town of Steinbach.

About 75 percent of the farmlands hit will have no crops this year, however continued warm weather can alleviate the farmers' plight to put the fields in condition for seeding before July 1 as was the case a few years ago when we had an exceptionally good summer.

## Birch Hills to be served by natural gas this year

Hon. Russ Brown, Minister in charge of the Saskatchewan Power Corporation, announced that the Saskatchewan Power Corporation would build a natural gas lateral and distribution system to serve the town of Birch Hills. This brings to 19 the number of urban centres which will receive natural gas service this year.

It is estimated that there will be approximately 150 service installations with perhaps 100 customers actually converting to gas for the 1959-60 heating season. About four miles of two-inch transmission line and 12,000 feet of four-inch and two-inch distribution mains are involved in this project.

Construction of the natural gas lateral and distribution system in Birch Hills will be done by Saskatchewan Power Corporation crews. It is expected that construction will start in about two weeks, and will be completed before mid-August. This should coincide fairly closely with the completion of the St. Louis-Tisdale transmission pipeline in this area.

## FIREMAKER

Oily rags and mops in a closed space may cause a fire by spontaneous combustion. It is safer to store such articles out of doors and, if possible, they should be washed after each use.

## Fishermen tackle road-building

Close to 100 men recently began widening the right-of-way of the Riverton-Matheson Island road as part of a Manitoba government program to provide work opportunities for fishermen on that part of Lake Winnipeg which is closed to summer fishing.

Hon. Gurney Evans, minister of mines and natural resources, said it was expected that the Matheson Island project would provide employment for 96 people. Work began June 16, and 90 men were on the job. Work is expected to last six to eight weeks, as long as the summer fishing season.

Work opportunities, he said, were not confined to those who had licences to fish last year, and men from a number of points other than the channel area of Lake Winnipeg, are working there.

Decision to help to provide alternative employment to fishermen to cover earnings lost through closing part of the lake to summer fishing was made at a May 26 meeting called by Mr. Evans. The following week, provincial officials and a representative of the federal Indian affairs branch toured the area to determine the number of fishermen affected by the new fishing regulations which were introduced to help restore Lake Winnipeg to its former greatness as a fishing area.

Most of the men employed are from 12 settlements. These are Matheson Island, Pine Dock, Princess Harbour, Loon Straits, Bloodvein, Jackhead, Koostatak, Lake St. Martin, Little Saskatchewan, Fisher Bay, Washow Bay and McBeth Point.

Until the end of June, the 45-mile project qualified for a 50 percent grant from the federal government under the forest access road agreement.

Mr. Evans said a number of people from the closed section of the lake were working elsewhere on Lake Winnipeg, several with the fisheries branch.

A most interesting aspect of the employment picture, he said was that an additional number of Lake Winnipeg fishermen have gone to Great Slave Lake in the Northwest Territories for the summer. Demand has been strong for these fishermen, for they are used to large lakes and are experienced navigators. For several years now, he said, Lake Winnipeg fishermen have spent the summer at Great Slave Lake, and more have gone this year.

## WARM ENOUGH FOR YOU?

During a heat wave discomfort can usually be lessened by wearing light loose clothing. Housework should, if possible be done during the cooler early morning hours. Fruit juices are refreshing. Serving plenty of salads will save the heat of cooking.

MAGNETIC MAMIE — Mamie Van Doren adds her special allure and excitement to MGM's "The Beat Generation," first picture to be laid against a background of America's controversial "beatniks" and their unconventional life.

## Classes to aid deaf pre-school age children planned in Regina

Help for deaf and partially deaf under-school-age children in Regina has come from an unexpected source. Prompted by the loneliness of her own totally deaf five-year-old son and a hard-of-hearing daughter, a young Regina mother has set in motion an organization which will provide them with special classes next fall.

Six weeks ago, Mrs. Verva Desrosiers began contacting ear specialists and speech therapists in the city to find other mothers with problems like her own. Four cases came to light. Newspaper advertising, afternoon radio broadcasts and an announcement at Sunday services in more than 30 city churches brought enquiries from four more young couples in Regina and others at Yorkton, Estevan, Glenavon and Rockglen.

"We haven't thought up a name for the organization yet, but what really matters is that we have eight children registered for classes, a teacher has been hired and tuition will begin early in September," says Mrs. Desrosiers.

Regina residents attending the first meeting were Mr. and Mrs. Desrosiers, Mr. and Mrs. T. Howe, Mr. and Mrs. J. Dureau, and Mr. and Mrs. D. Robson. Each couple has a deaf child not yet old enough to attend Saskatchewan School for the Deaf at Saskatoon.

"These pre-school years are some of the best learning years," according to Mrs. Desrosiers, herself a former school-teacher. "When they get to the school for the deaf many of these children will be past the age where they feel a real urge to speak. They will have found they can get along without it."

The second meeting of the organization was attended by 22 people, including three speech therapists and W. G. Bates, supervisor of guidance for the department of education.

It has been estimated that the special classes will cost between \$2,500 and \$3,000 a year, with the cost to each family amounting to about \$25 a month. There are hopes that this can be reduced to about \$18 a month. Contributions will be on a sliding scale, according to income, so that no hard-of-hearing or deaf child need forego the benefit of pre-school tuition because of his parent's financial limitations.

"We are going to have lots of financial problems," says Ted Desrosiers, who has been elected chairman of the organization. To help out, fathers of children registered for classes are to build school furniture, sand tables, cupboards and a desk for the teacher. They are also looking around for toys to be used in play therapy.

"It is important that deaf children of this age should develop socially," says Mr. Desrosiers, making a plea for contributions of unused toys.

Primarily, however, the purpose of the classes will be to help children handicapped by hearing de-

fects to develop some speech. It is planned to install amplifying equipment when classes have begun and the organization is assured of its solvency.

Accommodation for the classes has been offered by Regina Separate School Board in St. Pius X School, Regina. The teacher will be Mrs. Verna Finley of Regina, who has had five years teaching experience.

The organizers of the classes are facing problems other than limited funds. One is how to meet the needs of children living outside Regina. Three out-of-town couples are anxious to participate in the scheme but their children are too young to be boarded out. The proposed remedy for this is that, where possible, the children's fathers request transfer by their employers.

"We have also met with some apathy and are having to contend with the attitude that all education is a public responsibility. It is an attitude which cannot help these intensely lonely and frustrated children who cannot make themselves understood," asserts Mr. Desrosiers.

The Desrosiers' handicapped children are Michelle aged eight, who with only 25 percent hearing ability is having difficulty in progressing in public school, and Gregory aged five, totally deaf from birth. They have three other children, Angela 11, Conrad 3, and David 1.

Both Mr. and Mrs. Desrosiers are qualified teachers. Mrs. Desrosiers has had eight years teaching experience in rural and village schools in Saskatoon. Her husband is a physics and French teacher at Scott Collegiate, Regina.

## Wild turkey hatch spotted at Miami

—THE PEMBINA TRIANGLE, PROGRESS, Winkler, Man.

The first indication of success in a new venture came for Wild Gobblers Unlimited this week when they received reports that four young turkeys had been sighted in the Miami area.

Members of the Release Committee had spent many days in the area to see if any of the gobblers and hens released last year had broods. The four turkeys sighted were estimated to be about 3 to 4 weeks old.

(The Post-Review, Hudson Bay, Sask.)

**SPRING IS HERE** — and all the little birds are nesting — all those who have the natural inclination. Take "Jennie" the two-year-old canary belonging to Mr. and Mrs. J. Holnaty of Hudson Bay. When the family were away a couple of weeks ago, Jennie whose natural instinct, to nest, got the best of her, cast about for a suitable location and materials with which to build a nest. The potted Christmas Cactus seemed an ideal location and the long soft fuzz on the toy dog, made beautiful material. In the above picture "Jennie" peeps out defiantly at the world, from her fine nest, while the toy pup, bereft of patches of its fur, looks on dejectedly.

## ACME

Continued from front page

E. Musiko now has a phone R1721.

Mr. and Mrs. Casper Miller were away on a holiday trip to B.C.

Peggianne Sherring and Maxine Taylor attended the Anglican Junior Auxiliary Camp at Kananaskis near Banff.

We're pleased to hear Mrs. Art Taylor has recovered from an injury sustained in an accident at home.

Mr. and Mrs. John O'Hanlon and Mary were Brooks visitors at the home of Mr. and Mrs. Bob Edmondson last weekend.

Dianne Horney is holidaying in Edmonton at the home of her aunt and uncle Mr. and Mrs. C. E. Inkster.

Mr. and Mrs. L. A. Sagert have returned from a mountain holiday at Banff, etc. and expect to spend some time at the old home town Hay Lakes.

Mr. and Mrs. Murray Warren and family of Edmonton were visitors at the home of her parents Dr. and Mrs. W. G. Fowler on their way to Penticton, B.C. on holidays.

Mr. and Mrs. Emil Fischer, Mr. Karl Fischer, Mrs. Reuben Keim were away on a trip to Vancouver, Abbotsford, Kelowna. Marvin Keim, who flew to Vancouver, returned with them.

The executive of the Acme Tournament Association would like to express their thanks to members of the various committees who handled the Acme Baseball Tournament and Dance so well.

The coming week August 3 to 8th we will be away on holiday. It would be appreciated if you would leave any news items or business with Doreen Wheeler next door. The next issue of The Sentinel will be published immediately upon our return.

### WILSON—EISENBEIS

On Saturday July 25th at 2:00 p.m. the Acme United Church was the scene of a lovely wedding when Gloria Dorothy Eisenbeis, only daughter of Mr. and Mrs. Edwin Eisenbeis and Larry Du Wayne Wilson, son of Mr. and Mrs. Ernest Wilson were united in the bonds of holy matrimony.

Rev. Marvin Fowler officiated at the double ring ceremony Mr. William Eitzen was best man and Mrs. Donna Eitzen, sister of the groom was matron of honor. Mr. Bob Fowler was soloist.

The bride wore a blue embroidered sheath, topped by a

three quarter length duster of the same color with white accessories and carried a white orchid on a white prayer book. The matron of honor wore a beige lace and taffeta dress with white accessories and carried a white prayer book topped by red roses.

The bride and groom left immediately to spend their honeymoon at the west coast and will reside in Acme on their return.

## Beiseker

Dr. Don Fisher of Shelby had the misfortune to lose all his office furniture as well as most of his office supplies including his dental chairs at a fire which destroyed the business block where his office was located. It was one of the largest fires Shelby had for years. We hope Dr. Fisher soon will be able to assume his practice again.

The most welcome rainfall

on Tuesday amounted to 1.31 inches. Heavy winds did considerable damage to barley, flattening it almost completely and there is great doubt that it will come up again. Gardens were badly hit by the wind as well as branches from trees broken off and some trees uprooted.

BORN—To Mr. and Mrs. Erwin Hingst, an 8½ lb. son at the Linden Nursing Home. Congratulations.

Mr. and Mrs. Jos. Stern and son Eugene attended the S.D. A. Camp Meeting held last week at Lacombe.

Visitors at the Adolph Dicks recently were her two sisters from Washington. Mr. and Mrs. Dick also visited with relatives in B.C.

Mrs. Norman Roth (nee Doris Sailer) of Portland, Oregon attended the Le Roy Huether wedding last week.

Mr. and Mrs. Leonard Lang

brought home from the hospital their 7-months-old daughter who suffered a broken leg recently, and she is doing nicely. honesty and conscience are still with us.

Mr. and Mrs. Stan Olsen and children spent three days in Banff last week.

Mr. and Mrs. Herman Corry and daughter Jo-Ann spent the weekend at Fernie, B.C.

Mrs. L. E. Hagel is a patient in the Holy Cross Hospital following an operation on Wed. We all wish you a speedy recovery Anna Marie.

Miss Gay Schmaltz is clocking in the Matt Hagel store over the summer holidays.

Mr. and Mrs. Clarence Wendland and children of Rudyard, Montana visited over the weekend with the Vall Schmaltzs, the Bill Schwarzenbergers, the Alf Hagels and the Mike Schleppe. Before coming here they visited Waterton Lakes,

Banff, Lake Louise and Jasper.

BORN—To Mr. and Mrs. Ed Frederick of Calgary (nee Vicky Hagel) a daughter, July 25.

BORN—to Mr. and Mrs. Dave Lang, a son in the Linden Nursing Home July 25th.

To both families our Congratulations.

Mr. and Mrs. Nik Schwarzenberger and children of Edmonton returned home after a three week holiday spent at Calgary, Beiseker, Saskatoon and Allan, Sask. They were accompanied by his mother Mrs. E. N. Hagel who will spend a few weeks with them.

Mr. Pius Schmaltz of New Norway was in town Saturday.

4th Annual Auction Sale at 3-Way Station Ltd., Vulcan, Alta. Sale commences at 10 a.m. August 5, 1959. On sale will be:
